

## Customer Testimonials

*February 4, 2010*

*"I am so happy and proud to be a part of the Coastal Communities family. The minute that I got my first glimpse of Seawatch at Sunset Harbor, I knew that I had found the perfect retirement location. It was obvious the care that had been taken in the design of the community and the preservation of the natural beauty. When I toured the Low Country home, I immediately knew that I wanted Mark Saunders Luxury Homes to build my new home. Their attention to detail and master craftsmanship was second to none. My dream home is currently under construction and it is everything that I had hoped for (and more). Each day, my excitement builds and I can hardly wait to move into my beautiful new coastal inspired home and start living the Seawatch lifestyle. The Coastal Communities team is the best! I could not imagine a more professional, hardworking and caring group of people. Every employee that I have had contact with has made me feel as I am the most important client that they have and I would like to give special recognition to my team (Chad, Anthony, Jennifer and Rick) as they have been invaluable in helping me bring my dreams and desires to life. If I could go back and do it all over again, I would not change a thing and that is a very high compliment indeed."*

– JENNY HERNDON, NORTH CAROLINA

*February 5, 2010*

*"My wife and I are quite satisfied with the way we were treated by Mark Saunders' company and the people who work there. We found the staff to be professional and we like the home they built for us. All our friends to whom we have shown the home have been favorably impressed and the home won an award as best in its class."*

*Building in this market required a leap of faith, but we thought it was the right thing to do. When one of the workmen came down off a ladder to shake my hand during construction and said, "Thank you for the work", I knew we had done the right thing.*

*Of course it is never pleasant to invest money into something and then to find it has dropped in market value. But that is how markets are, as many of our stock portfolios reflect.*

*It seems to me to be counter productive to be tying up the developer with pointless lawsuits when we should be working together to make our wonderful communities and beautiful area even better -- which will bring in more people, make banks more likely to lend and ultimately bring the values up!"*
